**3**

**Performance G8 vs. PVC and Poly**

# Unparalleled Scratch and Mar Resistance for a Superior Installation

Specifically designed to be forgiving on intricate forming, bending and wrapping applications, Performance G8 also beautifully withstands the test of time, harsh weather and high-traffic areas.

## QUICK SPECS:

- Available in 7 colours
- Two sides painted
- Brushed texture
- 24" wide x 98.5' length (610mm wide x 30m length)
- 30-year limited warranty†

Excellent resistance to marring and scratching

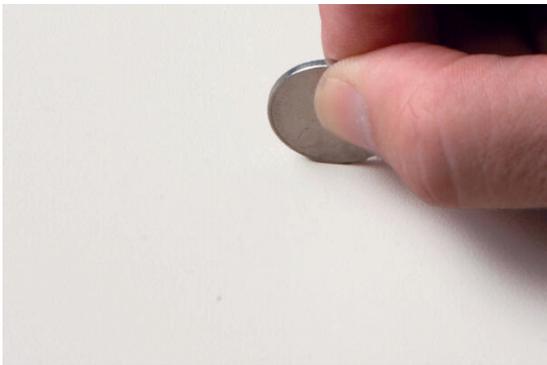

Superior flexibility and formability for installation ease

Long-lasting, beautiful finished look

## SEE THE DIFFERENCE!

Performance G8's flexibility, formability and highly durable topcoat will help you create a flawless finish. In these unretouched photos, a nickel rubbed across the surface of PVC and Poly finish coil easily leaves marks, while mar-resistant Performance G8 continues to look great!

**PERFORMANCE G8**

**POLY COATED**

**PVC COATED**

## NOTHING COMPARES TO PERFORMANCE G8\*

	PVC	POLY	PERFORMANCE G8
BETTER RESISTANCE TO ABRASION AND SCRATCHING			✓
