## Mitten offers Sentry vinyl siding in 3 profiles: Horizontal, Dutchlap, and Board & Batten.

### **Horizontal**

Our horizontal profile offers clean lines and the classic natural grain of traditional wood siding. This universal siding is suitable for nearly every style of home and is a consistent performer in even the most severe climate.

### **Dutchlap**

Our dutchlap profile is made to look like wood siding hand carved by old world craftsmen. The shape adds strength to the siding and the groove in the top of the dutchlap siding creates an appearance of depth and complements traditional architecture.

### **Board & Batten**

Our Board & Batten profile combines wide and narrow vertical panels in a simple, yet beautiful, design well suited to distinctive architectural styles.
